

C-Series Claw

## C-VLR 1000 Claw Vacuum Pump

**Elmo  
Rietschle**  
*A Gardner Denver Product*

### The most powerful claw vacuum pump on the market today

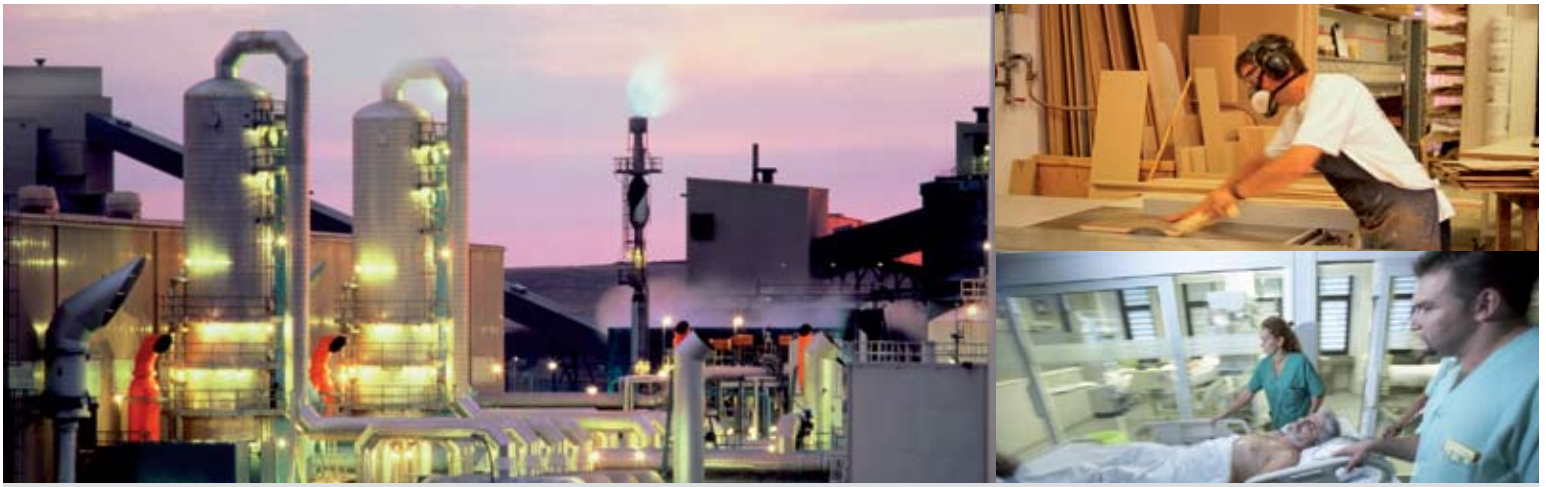

The Elmo Rietschle C-VLR 1000 is the most powerful claw vacuum pump on the market. Our contact-less oil free technology results in a friction free compression providing clean environmentally friendly vacuum performance.

- Comprehensive Solutions
- On-time delivery
- Quick response times
- Precision German technology

### Advantages

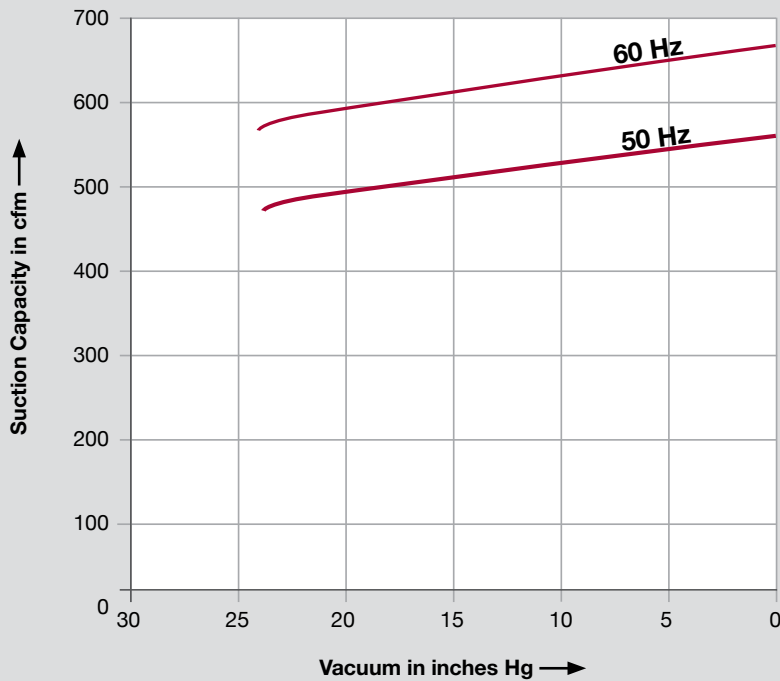

- Contact-less compression
- Oil free
- High efficiency
- Low maintenance
- Twice the capacity of our VLR-500 with only a slightly larger foot print
- Easy to install
- Integrated vacuum relief valve
- Patented monoblock design
- End vacuum:  
24" Hg at continuous operation
- Fairly flat capacity curve

## Typical applications

- Central vacuum systems
- Environmental
- Medical vacuum
- Paper and pulp industry
- Pick and place, vacuum lifting
- Pneumatic conveying
- CNC Routers
